COLOMBO, SRI LANKA

AUGUST 13th & 14th, 2016

www.clinicalnutritionupdate.in

“Building Excellence & Not Islands of Knowledge”

Welcome Message

On behalf of the organizing committee, we would like to invite you for the 8th Apollo International Clinical Nutrition Update (AICNU) 2016, which for the first time will be held in Colombo, Sri Lanka. Today's Clinical Dietitians are challenged to stay abreast of current science in an ever-changing Clinical Nutrition environment to ensure their advice is grounded in the latest evidence. To address the need of health professionals to be effective knowledge managers with ready access to timely, current and authoritative guidance on medical nutrition therapy questions encountered in every day clinical practice.

The annual AICNU is designed to provide Healthcare practitioners with an understanding of the central role of nutrition in health care setting. This Clinical Nutrition update is aimed to provide a distinguished opportunity to the Healthcare professionals to discuss latest advancements and challenges in the field. It is a 1½ days event held around the 2nd week of August. We are delighted to share the 1st announcement of the 8th AICNU 2016.

When and Where?

13th & 14th August 2016

Conference Venue

*Cinnamon Lakeside,
Colombo, Sri Lanka*

Direction to venue; Just 30 minutes drive from Bandaranayake International airport

Target Audience

Delegates from the field of Clinical Nutrition and Dietetics like

- Physicians
- Clinical Dietitians
- Nutritionists
- Nutrition Scientists & Researchers
- Lecturers of Clinical Nutrition
- Students of Nutrition and Dietetics and aspiring Nutritionists

Why you should attend?

All educational sessions at AICNU are designed for professional advancement. In addition, practice applications are incorporated into every session to ensure that what you learn can be implemented on the job. This update provides an overview and practical summary of the latest information on nutrition and health presented by internationally-recognized content experts.

What you will learn on conclusion of this update?

You will be able to:

- Incorporate nutritional information into clinical practice and advise patients about eating for optimum health as well as using dietary change as a therapeutic intervention
- Evaluate the benefits and risks of nutritional recommendations for specific health conditions through an analysis of the existing scientific and clinical evidence.
- We anticipate to gather a great deal of useful information from the attending pool of experts

Theme: “Building Excellence & Not Islands of Knowledge”

Thematic Focus

Delegates can expect robust clinical research and education that will impact your practice now and in the future, such as:

- Critical Care Nutrition: What, When, Why, How???
